

## **DIPLOMA IN NURSING**

This course introduces the student to nursing as a professional discipline. It provides the student with knowledge and skills for an exciting career in a variety of nursing roles in various health care institutions.

Students spend 3 years full time studying with practical experience in various discipline at several government hospitals and health clinics in Perak. During this period they will be equipped with relevant exposure and experience for an exciting career in a variety of nursing roles and health care settings.

Students in this programme are taught at UniKL RCMP campus in Ipoh, additionally they are also exposed to the clinical teaching and attachments in the Hospital Ipoh and in Hospital Teluk Intan. With these structures and organised approaches in the teaching of the nursing students, they will be more prepared to provide health care services to the community. Upon successful completion of the programme, a Diploma will be awarded by the University which is recognised by the Nursing Board of Malaysia.
